```
Example

```
1    "C:\Users\ws\Downloads\Wondershare DemoCreator 8(x64).exe" /VERYSILENT
     /LANG=ENG
```

Check for Updates

1. **Open the Application:** Start the application on your computer.

2. **Access Preferences:** Look for the gear icon or the menu that allows you to access the settings or preferences. This is usually located in the top right corner of the application window.

3. **Navigate to General Settings:** Once you are in the settings or preferences menu, find the "General" tab or section. This is where you can adjust basic settings like language and version updates.

4. **Check for Updates:** Look for the "Current Version" section. There should be a button or link labeled "Check for Updates." Click on this to initiate the update check process.

5. **Review Available Updates:** If updates are available, they will be listed for you to review. You may see details about what each update includes.

6. **Download and Install Updates:** Select the updates you want to install and follow the prompts to download and install them. Some updates may require you to restart the application.
